Subject: Comment: L. Loon

Hi,

I understand that there is a proposed highway by-pass likely to go across or through the top of Lake Loon/Loon Lake where it meets Mitchell Brook. Or, general area. It seems to be more than just a rumour. As I noticed your society referenced some work done on this lake, I thought you might be interested if not already aware.

If you are aware of this, are any studies underway or in the offing?

Best regards,
D. Cooper
