Subject: permission to use information on lakes

Hello:

We are producing a newsletter regarding the Salton Sea and are interested in using information on your website <http://lakes.chebucto.org/saline1.html>

We are particularly interested in two tables, one on volumes of water in global water compartments and the other on salinity and morphometric features of North American lakes.

So please respond as to:

1. If we can use the information, and
2. If you do allow us to use the information on the tables, how would like the reference line to read?

If you could respond by today or tomorrow, that would be most appreciated.

Thank you so much for your attention to this matter.

Respectfully,

Carmen Silva
for the Salton Sea Authority
