**Subject:** MORRIS-RUSSELL LAKE

I have been asked effectively to assimilate and prepare the final draft of a written submission on behalf of the Harbour East Friends of the Environment Society in support of a presentation to Halifax Regional Council tomorrow evening. I would be grateful to use Dr. Blouin's reference to the Dillon study as a reference supporting the significance of the study and would ask your permission to do so. I should also note that the Society has provided me a copy of the Perth study on the use of CDS pollution traps and their efficacy. It is possible that this document may have been located originated with you. If so I would proposed to cite the same in support of our submissions

On a number of occassions, the president of the society has asked that I speak to you and I would look forward to the opportunity to have a few moments to speak in the near future

Blair Mitchell
