**Subject:** Re: Important REQUEST to Environment & Sustainability Committee- LAKESCIENCE all over HRM

Good morning Dr. Mandaville,

Thank you for your email and request to make a presentation to the E & S Committee.

I respectfully direct your enquiry and request to the Clerks office, with all recipients of your email copied - including staff and Mayor/Councillors, that you be given the opportunity to appear before the Standing Committee at our next meeting.

I do read your regular emails to your professional contact list with great interest, and in particular, recent information pertaining to lake quality of Kearney Lake, as well as any information you have on the Birch Cove Lakes - Paper Mill Lakes system.

I look forward to the opportunity to hear your presentation to the Environment & Sustainability Committee as well as an opportunity to have dialogue regarding the above.

Kindest regards,

Debbie Hum  
Councillor - District 16  
Rockingham Wentworth  
cell: 476 7212  
office: 490 6807

(Preamble: You all have to click on the underlined words in order to view some backup info and `evidence`. I have around a thousand (1,000) or more cumulative emails that I received from your recent past staff as well as from `electors` from all over HRM asking for my assistance since no one else at any Government body is satisfying them or whatever. I will do my utmost in summarizing this formal request. Capitals are provided for emphasis only. This is written on an informal level and kindly pardon any typos/grammar. Cc'd/Bcc'd others at HRM for obvious reasons.)
