Subject: Lake Data Archive - Request for Info

I'd like to request information about Springfield Lake in Middle Sackville. As a resident of the area who is concerned about the lake water quality, I'm interesting in reviewing this data. What would you have available? If appropriate, I would welcome the opportunity to talk with you about Springfield Lake and area. My work number is (902) 426-2612

Thanks for your time and effort.

Patricia Isnor
